www.lumentum.com

“Lumentum” derives from lumen, for light and enlightenment, and momentum, for power and drive. These two core elements are central to what we do—confidently and creatively moving forward, and discovering all that light can do. Our business focuses on creating innovative products for the telecom, datacom, commercial laser, and 3D-sensing markets. Further, the considerable talents of the Lumentum management team reflect a unique mix of technological innovation, manufacturing expertise, and business insight.

We seek people who want to be a part of our success and who will bring their energy, expertise, and fresh perspectives to this exciting new company. If you aspire to excellence and can bring innovative yet practical solutions to tough challenges, then come be a part of our team and take part in creating the future with light!
