

ADVANCED MANUFACTURING PROGRAM

RE-ENTER THE WORKFORCE IN AN ADVANCED MANUFACTURING COMPANY

ADVANCED MANUFACTURING SPECIALIZED JOB TRAINING

With a skilled production workforce in short supply, manufacturing companies are stepping up and collaborating with work2future to meet their needs.

The Advanced Manufacturing Program targets job seekers who have been unemployed for at least 24 weeks, *or* receiving Unemployment Insurance, *or* a returning veteran. The goal of this program is to provide additional services to these individuals to enable them to successfully re-enter the workplace in an Advanced Manufacturing company.

**Program reserved for those defined by the Department of Labor as Long-Term Unemployed (out of work for 6months), receiving Unemployment Insurance (UI), and Returning Veterans*

TRAINING OPPORTUNITIES

Additional training related resources and larger amount of grant money that can be used to update skills and receive approved training certifications to re-enter the workforce.

EMPLOYMENT ASSISTANCE

Business and employment services for connections to open employment opportunities through established relationships with employers, on-the-job training (OJT), internships, and recruitments for manufacturing related occupations.

SPECIALIZED ASSISTANCE

Specialized case management including résumé customization. Mock interviewing, LinkedIn help, job searching strategies, workshop enrollment, available online learning options and more.
